FEDERAL ELECTION COMMISSION [Notice 2023–14] Request for Public Comment on Improvements To Report Filing Processes and Website Usability
https://www.fec.gov/resources/cms-content/documents/fedreg_notice_2023-14.pdf

Comment by Constance Lov Johnson
September 22, 2023

I have used the Federal Elections Commission's (FEC) website for two campaigns and submitted reports even though I decided not to raise funds because my political party in North Carolina robs Black entrepreneurs running for office of their campaign funds if using party related sources. I attempted to use my skills and personal funds to run. The reporting system I used was electronic and required a download into a desktop or laptop. It was the most antiquated system I've ever used, and I am one of the first to use software in the nation. We may as well use a green screen when using the FEC system.

There is no reason at all to make these systems difficult to use. It needs to be difficult to hack, not to utilize for reporting. I believe the terminology and links could be made simpler to ensure reports are accurate and files can be uploaded to the FEC.

Running for the Presidency in 2024 is a battle, and the FEC ignites a war to protect its Commander in Chief. I understand the need to want everything to stay the same, but our democracy is not made for reminiscing and sameness; but for effectiveness and resolutions. We must open the door to all citizens for every election regardless of the unauthorized disqualifiers cited by the parties. Our greatest presidents were the founders of our nation and were entrepreneurs creating a government that ensured our freedoms from the hierarchies of family heirs and kin. America's doors must be open to any natural born citizen that believes God has called them to serve in the capacity of presidential leadership.

FEC's systems must be made operable for those officials new to the process. I am not new to the process and know public administration from a formal education and from empirical experiences, but still find the FEC website outdated and far too complicated to maintain reports, and collect data relevant to buy or use for campaigning.

I have not been successful after submitting my Statement of Organization to receive my ID Number to begin my electronic filing reports and submit the number to ACTBlue to begin raising campaign funds. I have sent two subsequent emails requesting an ID Number to list on the FEC website and ACTBlue as a candidate for the presidency. I am following the process cited by the FEC and cannot receive a reply. I have to tell you that this is a violent age for communicating using online services. My google mail has been blocked numerous times, which may explain why I have not received the number. I will continue with efforts to communicate my needs to officiate my campaign.

I ask that the new or revised website be contracted to confidential secure employees and appointed officials of a technology department to complete the project. Websites in the hands of contractors are subject to retaliations and political favoritism that could cause violations in

trust and timeliness for completing projects and protecting individual campaigns.

I am accessible right now at _____, or through linkedin or X.com.

I appreciate the agency for allowing me this opportunity to present my comments on the FEC website.

I have used the Federal Elections Commission's (FEC) website for two campaigns and submitted reports even though I decided not to raise funds because my political party in North Carolina robs Black entrepreneurs running for office of their campaign funds if using party related sources. I attempted to use my skills and personal funds to run. The reporting system I used was electronic and required a download into a desktop or laptop. It was the most antiquated system I've ever used, and I am one of the first in the nation to use software. We may as well use a green screen when using the FEC system.

There is no reason at all to make these systems difficult to use. It needs to be difficult to hack, not to utilize for reporting. I believe the terminology and links could be made simpler to ensure reports are accurate and files can be uploaded to the FEC.

Running for the Presidency in 2024 is a battle, and the FEC ignites a war to protect its Commander in Chief. I understand the need to want everything to stay the same, but our democracy is not made for reminiscing and sameness; but for effectiveness and resolutions. We must open the door to all citizens for every election regardless of the unauthorized disqualifiers cited by the parties. Our greatest presidents were the founders of our nation and were entrepreneurs creating a government that ensured our freedoms from the hierarchies of family heirs and kin. America's doors must be open to all natural born citizens that believe God has called them to serve in the capacity of presidential leadership.

FEC's systems must be made operable for those candidates new to the process. I am not new to the process and know public administration from a formal education and from empirical experiences, but still find the FEC website outdated and far too complicated to maintain reports with ease. The design of the website complicates the management of data.

I have not been successful after submitting my Statement of Organization to receive my ID Number to begin my electronic filing reports and submit the number to ACTBlue to begin raising campaign funds. I have sent two subsequent emails requesting an ID Number to list on the FEC website and ACTBlue as a candidate for the presidency. I am following the process cited by the FEC and cannot receive a reply. I have to tell you that this is a violent age for communicating using online services. My google mail has been blocked numerous times, which may explain why I have not received the number. I will continue with efforts to communicate my needs to officiate my campaign.

I ask that the new or revised website ensure confidentiality and that employees and appointed officials of a technology department secure the jobs to complete the project. Websites in the hands of contractors are subject to retaliations and political favoritism that could cause violations in trust and timeliness for completing projects and protecting individual campaigns.

I am accessible right now at _____, or through linkedin or X.com.

I appreciate the agency for allowing me this opportunity to present my comments on the FEC website.

FEC Officials,

I have written five times now requesting that you cease in your discrimination of my campaign. I am asking that the FEC ID Number be sent immediately, or that my present ID change its title to Constance Johnson for President of the United States of America. I need this changed or a number by 12:00 p.m. Friday, September 29, 2023, 4:00 p.m. I know my email address are being blocked, but this email address is receiving mail so far. I have provided other social media pages to contact me if this gmail address does not connect.

Please reply addressing my request to avoid a public outcry for help.

Constance Johnson for President of the United States of America
