## FEC UPDATES LISTING OF 1992 PRIMARY DATES FOR PRESIDENTIAL AND CONGRESSIONAL RACES - Deadlines included for ballot access -

WASHINGTON -- The Federal Election Commission has updated a comprehensive listing of primary dates for 1992 presidential and congressional primaries, previously issued in July. Also included are the ballot access deadlines in each state.

The listing was compiled by the Commission's Disclosure Division after conducting a nationwide survey of state election offices. For easy reference, the FEC has presented the information both by state and chronological order.

Election dates and ballot access deadlines are set by each state. Due to the high level of interest in such information, the FEC, which monitors campaign financing of federal candidates, collected the data in conjunction with other information the agency compiles on federal elections.

The FEC will update this chart once changes are reported by the states.
