## FEC ISSUES COMPILATION OF OFFICIAL 1996 FEDERAL ELECTION RETURNS

WASHINGTON – The Federal Election Commission has announced publication of the official 1996 election results for the Presidential and Congressional elections. Federal Election 96 is the eighth in a series designed by the FEC to provide an accurate historical record of federal election results.

In addition to the official primary, run-off and general election results, the publication contains the results for the elections to fill the unexpired Senate term in Kansas, the unexpired House of Representatives term in Missouri, and the special general and run-off elections in Texas.

Data are based on the official figures provided to the Commission by state election officials, and include results amended through May 1997. If the election results are modified in the future, the Commission will supply errata supplements as necessary.

A limited number of copies of the publication are available from the Federal Election Commission's Public Records Office. Additional copies may be ordered from the National Technical Information Service (NTIS), U.S. Department of Commerce, 5285 Port Royal Road, Springfield, Virginia 22161. The publication is also available, for the first time, on the Commission's Web site - <http://www.fec.gov>.
