... A 10:24

The Constitution demands that a candidate who would be president and the military commander and chief, be a United States citizen. It is absolutely senseless and absurd to think that someone who is not a citizen of these United States would even consider eligibility for that role. This is a Constitutional issue. Is it now that we cannot feel assured that only constitutionally qualified contenders are applying to run for offices? Your duty is to help insure open and fair elections not to encourage fraud
