We're not seeking an extension. I referred to it in shorthand as an "extension" because we're seeking a deadline that is later than that established in your letter, but under the circumstances we're only seeking the same opportunity to respond to an RTB finding that any other respondent would get under the Commission's processes - i.e., fifteen days, not fifteen additional days for a total of 30 days. As it stands, we have been deprived of that opportunity. Under the Commission's procedures and fundamental due process, our initial opportunity to respond should not and cannot be conditioned upon us making other concessions.

Please give us the same opportunity to respond that other respondents get.

Sincerely,
Chris
