RE: MUR 7268

Medford, Oregon 97504

Dear Ms. Dennis:

Regarding MUR 7268:

1. President Vladimir Putin's order starting the interference is now public record.
2. The series of British field notes on the operation date the start time to approximately 5 years ago.
3. There are multiple findings within the public realm of the Trump campaign, and his family, plus others who were recruited to forge an illegal political alliance to provide aid to the Trump campaign. Please review the Mueller investigation data, the "Dossier" information reporting that cooperation, and extensive public news reporting.
4. This fraudulent behavior has clearly harmed our nation.
5. The fraud obstructed Ms. Clinton's rights to a fair election.
6. The number of votes altered by this fraudulent behavior had a direct and tangible effect on the final tally.
7. Mr. Trump is a business partner of, and who has ties and obligations to, the oligarchs and thus the Kremlin. A considerable portion of his business is Russian. It is virtually impossible to separate collusion from obligation.
8. Available public documents show an attempt by the Russian's to curry favor for specific projects.

All of the above tie the Russian political intervention and are illegal, and were part of the long term Hybrid assault. That assault had costs between 100 of thousands and 100s of millions of dollars. Can I presume no costs have been forwarded to the appropriate agency? There is an ever mounting surge of evidence of violation of 52 USC 3014 .

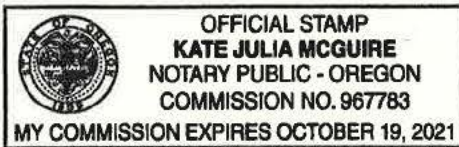

Of secondary concern: my Facebook account has been pulled off line due to illegal access activity. This has created the incentive to question who has violated my privacy, and leads us to ask, with the above information available to you, where our complaint is in the legal process in the investigation of this complaint.

Sincerely,
